Challenge 1 · Challenge 2 · Challenge 3 · Challenge 4 · Challenge 5 · Challenge 6

MENTOR · MENTOR · MENTOR · MENTOR
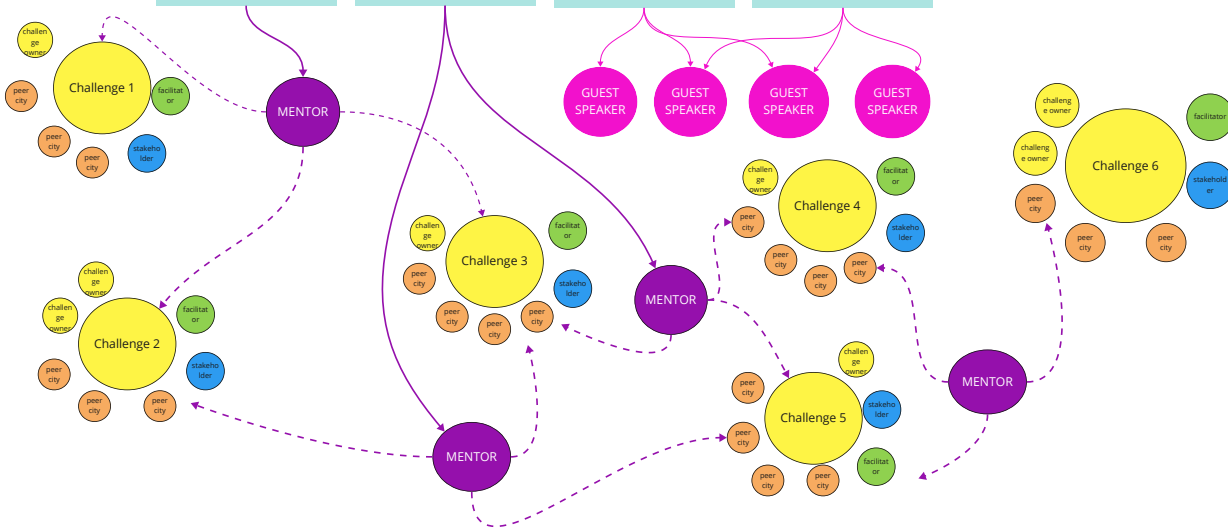

Roles / participant types

challenge owner — A city that comes to the Lab with a specific, real-life challenge they would like to work out with peers and experts. They frame the challenge around which the working group is formed.

peer city — A city that has not come with a particular challenge, but has dealt with similar issue and want to share their experience and learn from others and experts.

stakeholder — Local stakeholder: a representative of a local community affected by the issue at hand, or initiative, movement, CSO, academia. Stakeholder is a regular member of the working group (collaborates with the group for the whole event).

facilitator — Facilitator skilled in design thinking / group process, who ensures the group works effectively and towards the goal.

MENTOR — Expert on the issue representing the host city and Nets4Dem network. Mentors can give the keynote address and/or lightning talks, and assist working groups over the whole event - they hop from table to table to advise teams, depending on mentor's expertise. Team of mentors should comprise of diverse expertise (i.e. citizen participation, digitalisation of services, ethics in digital)

GUEST SPEAKER — A representative of a local initiative, programme, movement, CSO, academia, think-tank, etc. They act as site visit hosts, or give a guest intervention; they join the event only for a certain period/activity to present a good practices, new perspective, and inspire participants. Can also advise working groups.
